ABOUT

Engineer by training. Photographer by soul.

Vasco Pereira is a computer engineer whose true passion lives behind the camera. Photography, for Vasco, isn't a job — it's a way of life. A pursuit of beauty in the everyday, the extraordinary, and everything in between.

> *"Each image an emotional storytelling."*

PORTFOLIO

Every frame tells a story.

A body of work that spans continents, emotions, cultures, street and moments.

PHILOSOPHY

"Photography is not just a technique. It's a way of seeing — and a reason to keep looking."

Every shutter click is a decision. Every frame, a commitment. Vasco believes in photography as a practice of presence — slowing down to notice what others miss.

WORKSHOP

Learn to see before you shoot.

A full-day immersive photography workshop — indoors and outdoors — led by Vasco Pereira. Equal parts theory, street practice, and honest conversation about what makes an image matter. Small groups, big questions, real feedback.

Full day · 9h–18h | Max 8 people | All levels | Lisbon
